40 Years of Proven Experience.

Our vision is to be *the best* employee-owned construction company in the world.

# FACTS APP DEVELOPMENT

## Field Application for Certifications, Training and Safety – F.A.C.T.S. Mobile App for Verification of Training (2021)

Verification of team member training can now be completed at the click of a few buttons on the Starcon F.A.C.T.S. app or by scanning a small RFID tags located on a team members hard hat. All Starcon training and certifications can be verified at any time by any Starcon or Cianbro supervisor. In addition to showing completed training, the app also will provide the date at which the training was completed and an expiration date for some training and certifications. When field verification for compliance is needed, the FACTS app is readily available.

Challenges :	Improvements :
Slow paper processes	Transfer to digital program, no paper required
Delay in record retrieval	Records available on demand
Transferability from site to site	Centralized database – Records available across all company
Office / Computer based interface	Use mobile device anywhere allowed
